

CORNER RECORD
WARRICK COUNTY

DESCRIPTION:

SOUTHWEST CORNER NORTHEAST QUARTER
SECTION 20, T. 5 S., R. 6 W.
2nd PRINCIPAL MERIDIAN

WARRICK COUNTY SURVEYOR
KARAN HARGRAVE-BARNHILL

INDICATE CORNER REFERENCED:

MONUMENT TYPE: ALUMINUM DISK
SIZE: 3-1/4" DIAM.
DEPTH/HEIGHT: FLUSH
REFERENCE TIE DRAWING:

FOR NOTES ON CORNER HISTORY SEE REVERSE.

STATE PLANE COORDINATE DATA:
INDIANA WEST ZONE, NAD 83 (1997)
U.S. SURVEY FEET

X 2947937.95

Y 1026980.32

COORDINATES ESTABLISHED BY:
Bernardin-Lochmueller Assoc. by GPS
ties to HARN Station "JACKSON"
APPROVED BY:

DATE:

REFERENCED BY: G.F.BERRY/G.M.BURRESS DATE: 4/10/03
DISK SET 10/24/03 D.DREES/G.M.BURRESS
APPROVED BY: P.JONES, RLS#9600016 DATE: 10/28/03

CORNER FILE CODE:
T5S-R6W-P-07

CORNER HISTORY:

CORNER FILE CODE:
T5S-R6W-P-07

ORIGINAL USPLS SURVEY: (Center of section not monumented by USPLS survey)

COUNTY SURVEYOR'S BOOKS: Book 1 P. 122 John C. Frary WCS September 20, 1859 "Stone marked CS set 2 links too far south". (R. Oak 8 S41°E 7-1/2).

Book 4 P. 46 C.Warren Abbott WCS 1946 "Old original stone found". (also mentions Red Oak bearing tree in place per Bk. 1, P. 122).

OTHER SURVEYS AND PLATS: (None found)

VERIFICATION OF CORNER POSITION: April, 2003; the center of section was re-established at the calculated intersection of the north-south half-section line (on line between the calculated north quarter corner and a stone found at the SW corner NW 1/4 SE 1/4) with the east-west half-section line (on line between a rebar found at the west quarter corner and a RR tie fence post at the east quarter corner). The re-established position agrees well with old fencelines to the west and south. A 3/4" rebar was found 0.62 feet west and 14.17 feet south of the re-established location. The history of the rebar is not known; it was not used since it appears to have been placed at the same time as rebars marking the corners of the 5-acre tract cut out of the E 1/2 NW 1/4 (Deed File 3, Card 13455). The bearings measured between these rebars did not correspond well with other monumentation in the area and therefore were not considered reliable. Coordinates shown were obtained by a combination of rapid-static GPS and total-station traverse. For additional information refer to the Boundary Retracement Survey recorded in Doc. 2003R-006299 (Bernardin-Lochmueller Assoc. Proj. 102-0060-OSV/SV0A). The rebar with cap shown on Doc. 2003R-006299 was replaced October 24, 2003 with the aluminum disk shown.

P.E. Jones 10/28/03
